A0A We invite you to indicate if there are items on the CDS for which you cannot use the requested analytic convention, cannot provide data for the cohort requested, whose methodology is unclear, or about which you have questions or comments in general. This information will not be published but will help the publishers further refine CDS items.

Degree-seeking is unclear, in that some of the students at Mills are enrolled in for-credit courses that are contributing to their degree at another institution. It is unclear whether to count them in our degree-seeking count or not. Also, you do not allow for auditors to be counted, where we do count them in our headcount in our institutional reports.
