**FOR DIABLO VALLEY COLLEGE**

# Welcome to Mills College!

At Mills, we share a conviction that every voice matters. Our students become powerful communicators, ready to advocate for themselves and their ideas. We draw strength from each other, our experiences, and our differences. Here, you will be part of a multicultural community that prides itself on its commitment to dialogue, ideals, and social change.

The Mills College Office of Admissions is responsible for finding the next class of bold, creative, independent women to join our community. We are serious about finding the right students who share our commitment to intellectual inquiry and social justice, and who will actively engage with our inclusive, empowering community.

To find the right students for Mills, we've established a holistic admissions process that allows you to share a complete picture of who you are and what you hope to achieve. We are interested in your experiences, passions, and activities, in addition to your grades.

This packet of information, compiled by our admission counselors, will be a valuable resource during your application process. If you have any questions, please call, email, or schedule an in-person appointment—we are here as a resource for you! At Mills you'll find all the support you need to stand out and MAKE A STATEMENT.

## Transfer Timeline for High School Seniors

The California community college system provides an option for students to complete up to two years of college coursework before transfer. If you are currently in high school and plan to attend community college before transferring to Mills College, you may use the information below to assist with planning. Remember that you are able to transfer to Mills College at any time—there is no minimum number of units required to transfer, and core (general education) courses can be completed at Mills.

Check the General Education Matrix on the next page and the Major Articulation tables on the following pages to make sure the classes you are taking will transfer. Your community college counselor AND your Mills College admission counselor can help if you have any questions.

Timeframe	Suggested Action
High School Senior Year – Fall	Research local community colleges. All community colleges offer the opportunity to complete general education courses, but each has special strengths: <i>Is there an honors program? Do they offer multiple classes in your area of interest? Is there a strong campus culture with activities you might participate in?</i>
High School Senior Year – Spring	Fill out the application form at your community college and arrange to take any needed placement exams. Meet with a community college counselor and make an academic plan based on when you plan to transfer to Mills College. Consider summer classes.
Summer After High School Graduation	1-2 classes. If you tested into any pre-college work in math or English, focus on that. Otherwise, use this as a time to begin taking general education and elective courses.
College First Year – Fall	4 classes. Prioritize any needed pre-college work. Mills College advisors recommend 1 English course, 1 additional general education course, 1 course in your area of interest, and 1 elective course.
College First Year – Spring	Mills College advisors recommend 1 English course, 2 general education courses, and 1 elective course.
College First Year – Summer	2-3 courses. Check in with your Mills College admissions counselor to review transcripts and make sure you are still on track to transfer.
College Second Year – Fall and Spring	Continue to take 4 classes per term, working to complete general education requirements and explore your area of interest. In December, reach out to your Mills College admission counselor to begin planning your application process. Make sure to submit your application by the March 1 Priority Deadline for scholarship consideration.

## General Education Matrix for Transfer Students

Many of the Mills College core curriculum requirements can be fulfilled using transfer credits. To assist students transferring from the California community college system, Mills has constructed our core curriculum requirements around the IGETC (Intersegmental General Education Transfer Curriculum) used by the UC and CSU systems.

- **Students who have NOT completed IGETC** for UC and CSU can use the table below to assist with planning.
- **Students who have completed IGETC** for UC and CSU have completed the Mills College core requirements, with the exception of a Race, Gender and Power class. This course must be completed at Mills.
- **Students who are transferring from an out-of-state community college or from another four-year institution** are encouraged to contact the Office of Undergraduate Admissions and make an appointment for an unofficial transfer of credit evaluation to review their transcripts.

Remember that you are able to transfer to Mills College at any time—there is no minimum number of units required to transfer, and core (general education) courses can be completed at Mills.

Mills Core Curriculum Area	IGETC Alignment
Written and Oral Communication	Area 1A: English Composition AND Area 1B: Critical Thinking
Critical Analysis	Area 1B: Critical Thinking
Quantitative Literacy	Area 2: Mathematical Concepts and Quantitative Reasoning
Scientific Inquiry of Natural Systems	Area 5: Physical and Biological Sciences
Creativity, Innovation and Experimentation	Area 3: Arts and Humanities
Language Other Than English	Area 6: Languages Other Than English OR passing a proficiency examination at Mills College
International Perspectives	Area 4H (we strongly recommend a class with an international focus)
Race, Gender and Power	Must be taken at Mills College
Community Engagement	Must be taken at Mills College (can be taken concurrently with another requirement)

## How to Apply to Mills College

We strive to make the application process as straightforward and accessible as possible. You may apply to Mills College directly or by using the Common Application. Go to [www.mills.edu/applyundergrad](http://www.mills.edu/applyundergrad) to start your application.

### Know the Application Deadlines

November 1	Spring admission
March 1	Fall transfer priority admission
April 1	Fall transfer regular admission

### Start Your Application Early

Both the Mills Application and the Common Application are available on August 1. You don't have to complete the application in one sitting. Feel free to pause and come back later. You may save your Common Application for up to two years to apply at a later date.

### Application Checklist for Transfer Students

- Application**  
Submit the Mills Application or Common Application online: [www.mills.edu/applyundergrad](http://www.mills.edu/applyundergrad).
- Application Fee**  
To be paid online when submitting application.  
(Fee waivers accepted.)
- Official College Transcripts**  
Transcripts should be sent directly to the Admissions Office from all colleges you have attended.
- Official Secondary School Documentation**  
Applicants with fewer than 24 transferrable units must submit a high school transcript, GED, or a state-approved high school proficiency exam.
- Instructor Evaluation**  
Ask a professor of an academic subject to complete the instructor evaluation form. Applicants who have not attended college in the past two years may substitute an employer recommendation.
- Proof of English Language Proficiency**  
TOEFL or IELTS required only of international applicants for whom English is a second language.
- Optional: Official SAT or ACT Score Report**  
Required only of students with fewer than 24 transferrable units who were homeschooled or who attended a school with narrative-only evaluations.
- Optional: Admissions Interview**  
Highly recommended! Interviews are a chance for you to learn if Mills is the right fit for you, and for our admissions team to learn more about you personally.

## Frequently Asked Questions

### ADMISSION REQUIREMENTS

#### **Do I need a certain GPA or a minimum number of transfer units?**

There is no minimum GPA required for admission to Mills College. Our application process is holistic, so we consider many factors beyond GPA, such as your writing skills, strength of curriculum, and recommendations. Strong transfer applicants will have a 3.0 GPA or higher in college-level, transferable coursework. We recommend that you take general education courses, such as mathematics, natural sciences, social sciences, history, English, and foreign languages. You can apply for transfer admission after just one semester of college coursework; we do not require a minimum number of course units.

#### **Do transfer students need to submit a high school transcript or midterm/current grades?**

Transfer students who have completed fewer than 24 transferable semester units will need to submit a high school transcript with proof of your high school graduation. If you did not graduate from high school, you will need to submit a GED or a state-approved high school proficiency exam. In certain cases, we may ask you to send your midterm or current grades to help us better evaluate your application.

#### **Do you require admission interviews?**

Interviews aren't required, but we highly recommend them to help you learn about all that Mills has to offer. This is also a great way for you to meet one of our admission counselors who can help you navigate the admission process. We offer interviews on campus, via Skype or FaceTime, and at select off-campus locations throughout the year.

#### **Can I apply for admission and receive financial aid if I am an undocumented or AB 540 student?**

Yes, undocumented or AB 540 students are invited to apply for admission to Mills College. All Mills applicants are considered for our merit scholarships and eligible to apply for need-based scholarships from Mills College.

### TRANSFER CREDIT

#### **Can I get college credit at Mills using my scores from Advanced Placement (AP) and International Baccalaureate (IB) exams?**

Yes, you can obtain college credit towards your degree by taking AP and IB exams. Generally, AP exam scores of 4 or 5 can earn you up to one year of credit in the exam's subject area. Higher-level IB exam scores of 5, 6, and 7 can earn you one or two course credits. Please visit the online undergraduate catalog for additional information.

#### **What is the maximum number of units Mills College will accept for transfer credit?**

If you're coming from another four-year institution, you can transfer up to 77 semester units or 110 quarter units. From a community college, you can transfer a maximum of 67 semester units or 100 quarter units.

#### **How will I know which of my courses will be accepted for transfer credit?**

Once admitted to Mills College, you will receive an official transfer of credit report online through our Registrar's Office. You will receive a final transfer of credit report after submitting your final college transcript. Generally, we offer transfer credit for liberal arts courses that are similar in content and depth to courses available at Mills. In the case of California community college courses, we usually offer credit if the courses are accepted for credit by the UC system.

#### **How many students apply to Mills College as transfer students?**

The number varies each year; however, we usually receive around 300 transfer applications for fall and 100 transfer applications for spring. Transfer students make up about a third of our overall student body.

# MAJOR ARTICULATIONS

## Art History

Mills College Major Requirements	Diablo Valley College Courses
ARTH 018. Introduction to Western Art	BOTH required to substitute for ARTH 018: ARTHS 195. History of Prehistoric and Ancient Art ARTHS 196. History of Medieval and Renaissance Art
ARTH 019. Art of the Modern World	ARTHS 197. History of Baroque to 20th Century Art
ARTH 081. Introduction to Asian Art: India, Nepal, and Tibet	ARTHS 193. History of Asian Art (This course can substitute for either ARTH 081 or ARTH 082, but not both.)
ARTH 082. Introduction to Asian Art: China	ARTHS 193. History of Asian Art (This course can substitute for either ARTH 081 or ARTH 082, but not both.)
Art History Elective	ARTSH 199. Contemporary Art History
One Studio Art Course	Any of the following: ART 105, ART 101, ART 102, ART 107, ART 138, ART 152, ART 160, ARTDM 112

\*Note: Students need a total of 40 credits to graduate with a degree in Art History, at least 20 of which must be taken at Mills.

## Biochemistry & Molecular Biology

Mills College Major Requirements	Diablo Valley College Courses
