

BREAKING BARRIERS

REDUCING TUITION BY 36%
FOR A TOP-RANKED EDUCATION

MILLS

Mills was founded in 1852 to provide educational opportunities to women, defying the convention of the time. Today, we are breaking barriers again by providing students of all backgrounds access to a life-changing education.

BREAKING BARRIERS TO A COLLEGE EDUCATION

TUITION BEFORE REDUCTION: \$44,765
TUITION AFTER REDUCTION: \$28,765

In fall 2018, we will reset our tuition back to 2005 rates. In addition to enjoying reduced tuition, current and new students will also be considered for merit scholarships **and** can still apply for financial aid to further lower their costs.

Our goal is to remove barriers that stand between you and your college dreams.

OUR NUMBERS REFLECT OUR QUALITY.

“

THE IMMENSE EMPOWERMENT I RECEIVED AT MILLS WILL REMAIN WITH ME THROUGHOUT MY CAREER AND WILL INSPIRE ME TO CONTINUE ON WITH MY GOAL OF RUNNING FOR PUBLIC OFFICE.

ISABEL CORTES
CLASS OF 2012

”

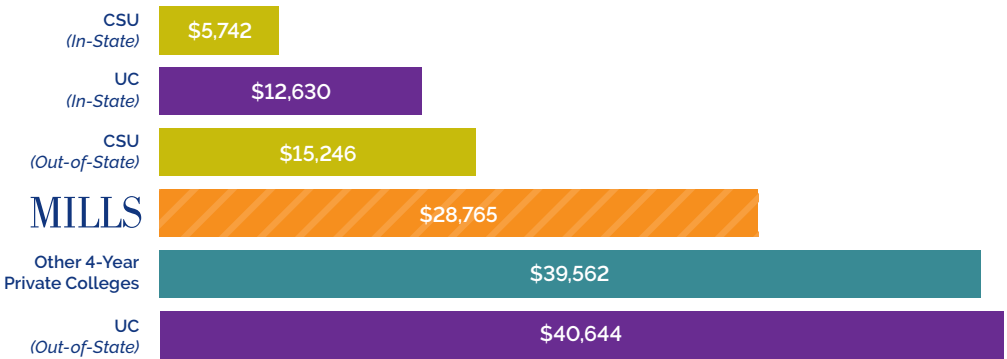

Why Are We Doing This?

We want all academically qualified students to see that a top-ranked education is within their reach. Many students and families don't realize that colleges set high tuition prices that are deeply discounted through scholarships and financial aid.

This high price/high discount model can prevent students from considering all of their options during the college search process. Mills is leading California private colleges by eliminating this roadblock to a great education.

How Does Mills Compare to Other California Colleges?

(Mills: 2018-19 Tuition; Others: Median 2017-18 Published Tuition)

How Will This Benefit You?

- You'll have the opportunity to **experience a personalized education** mentored by distinguished faculty in an inclusive community where you can stand out and fit in.
- During your college search, you'll **better understand how affordable tuition at Mills is** and gain a greater breadth of college choices.
- **Scholarships, grants, and financial aid will further reduce the price** of the tuition you'll pay.
- Reduced tuition should help students incur **lower student loans and less debt** after graduation.

Be Empowered for Success.

Mills offers an active, engaged learning environment that prepares students to become creative, independent thinkers. Each student embarks on a signature academic experience that is both an individualized and a mentored educational journey.

Inside and outside the classroom, students work one-on-one with renowned professors on research and creative projects and in the community on internships and service learning.

This challenging environment prepares students with the confidence and competence to lead in their careers and communities.
